Tel: 902-684-9708 Toll free: 1-866-395-3838 Fax: 902-684-9844
See more on our website: www.TimberhArt.com

We design, supply and install timber frames, delivering them all over North America as well as internationally.

We build full timber frames, hybrid frames (partial timber frames), and timber accents.

Options:

We offer a variety of options, including:

- supply and installation of roof panels
- custom stairs
- custom interior doors
- flooring
- heritage wide board flooring
- elm flooring
- oak flooring

Generally the pricing of our frames run between \$25.00 - \$40.00 CAD per square foot delivered and erected.

Some variables in the costing are:

- species of wood
- complexity of design
- location
- engineering costs

Inspired Designs:

Creations that excite the imagination, while challenging the boundaries of art, design and craft. Our intriguing designs with mortise and tenon joinery will delight you.

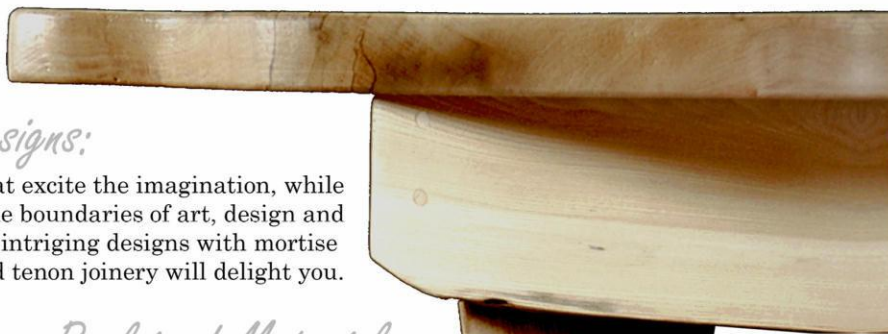

Reclaimed Material:

Fine wood, such as the magnificent Elm are reclaimed from "urban forests" where trees may require removal.

Wood "harvested" from old buildings, orchards past their producing years, pieces from our special collections and off-cuts from timber framing, yield wood for our creations.

The Artisans:

The Artisans use their craft to explore and uncover the unique beauty that lies within the wood. Each design is part of a growing collection borne of art and generated by function. From natural forms through to traditional, we offer an array of designs. Carvings, inlays or blending with other materials such as slate, stain glass or ironwork enhance the pieces.

As timber framers, we carry forward a craft with a long tradition. Old timber frames which have outlived their original purpose can be recycled into new buildings that meet modern standards and needs.

Historic frames which have been damaged or neglected can be rebuilt, repaired, or reconditioned. In doing so, we are preserving historical treasures and using resources wisely. We also have the opportunity to revive beautiful old wood which may be impossible to find otherwise.
